Flow Chart Symbols

Symbol	Name	Function
	Start/end	An oval represents a start or end point.
	Arrows	A line is a connector that shows relationships between the representative shapes.
	Input/Output	A parallelogram represents input or output.
	Process	A rectangle represents a process.
	Decision	A diamond indicates a decision.

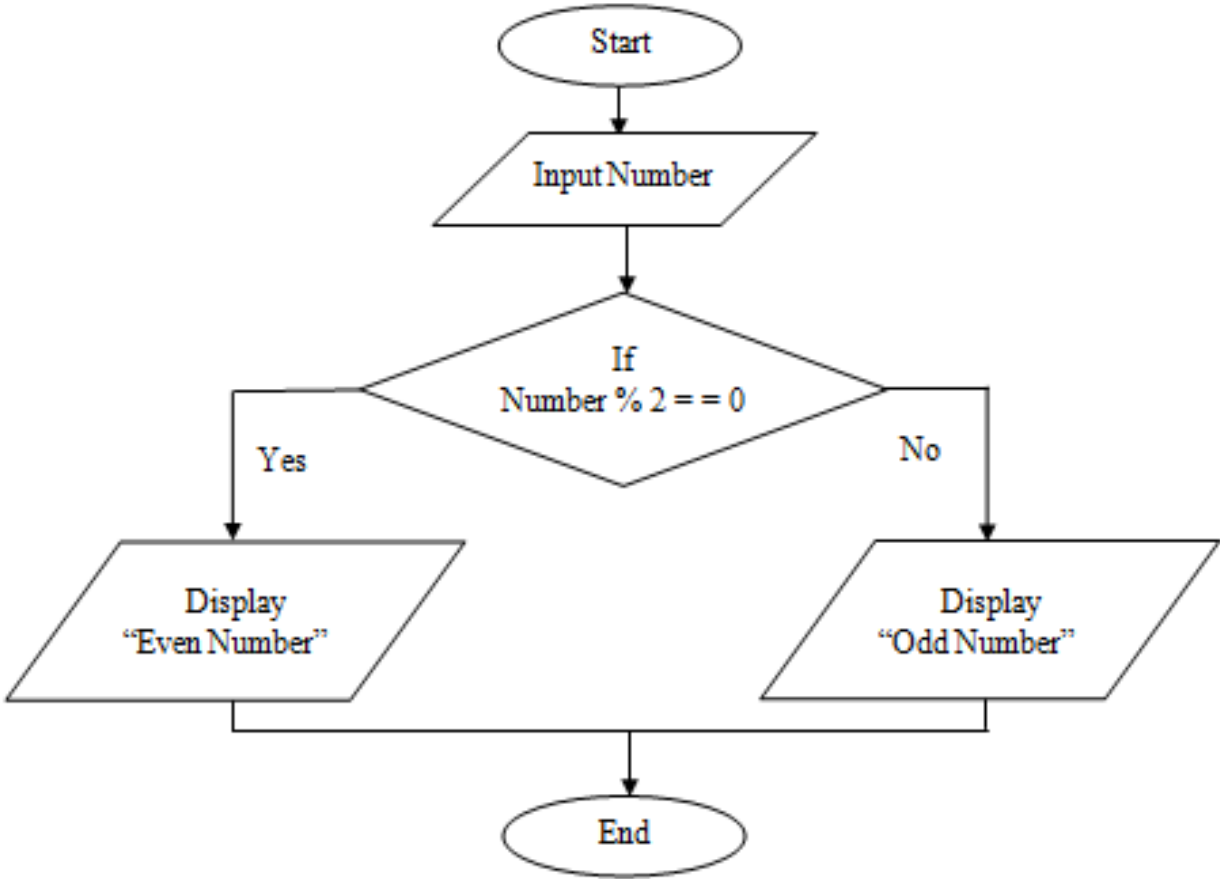

Basic Flowchart

Flow Chart Symbols - Explained

Flow Chart Example 1

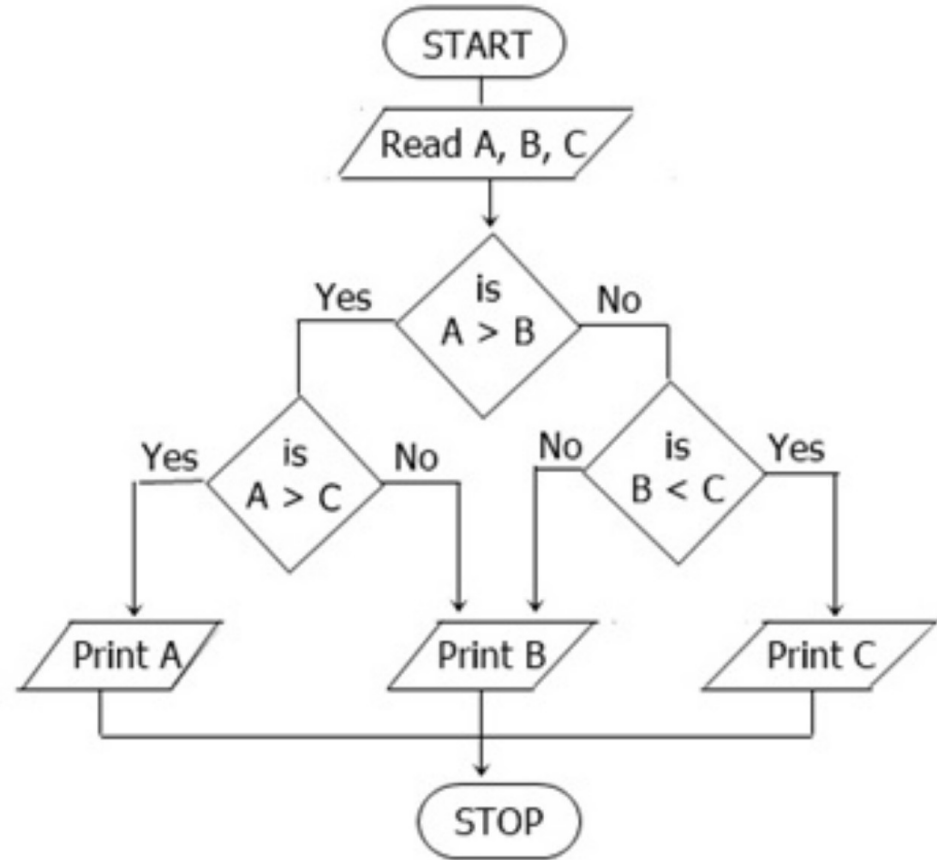

Flow Chart Example 2

What business logic this flow chart implements?

What will be the output for $A = 2, B = 4, C = 3$

What will be the output for $A = 5, B = 10, C = 0$

What will be the output for $A = 6, B = 1, C = 12$

Flow Chart Exercise

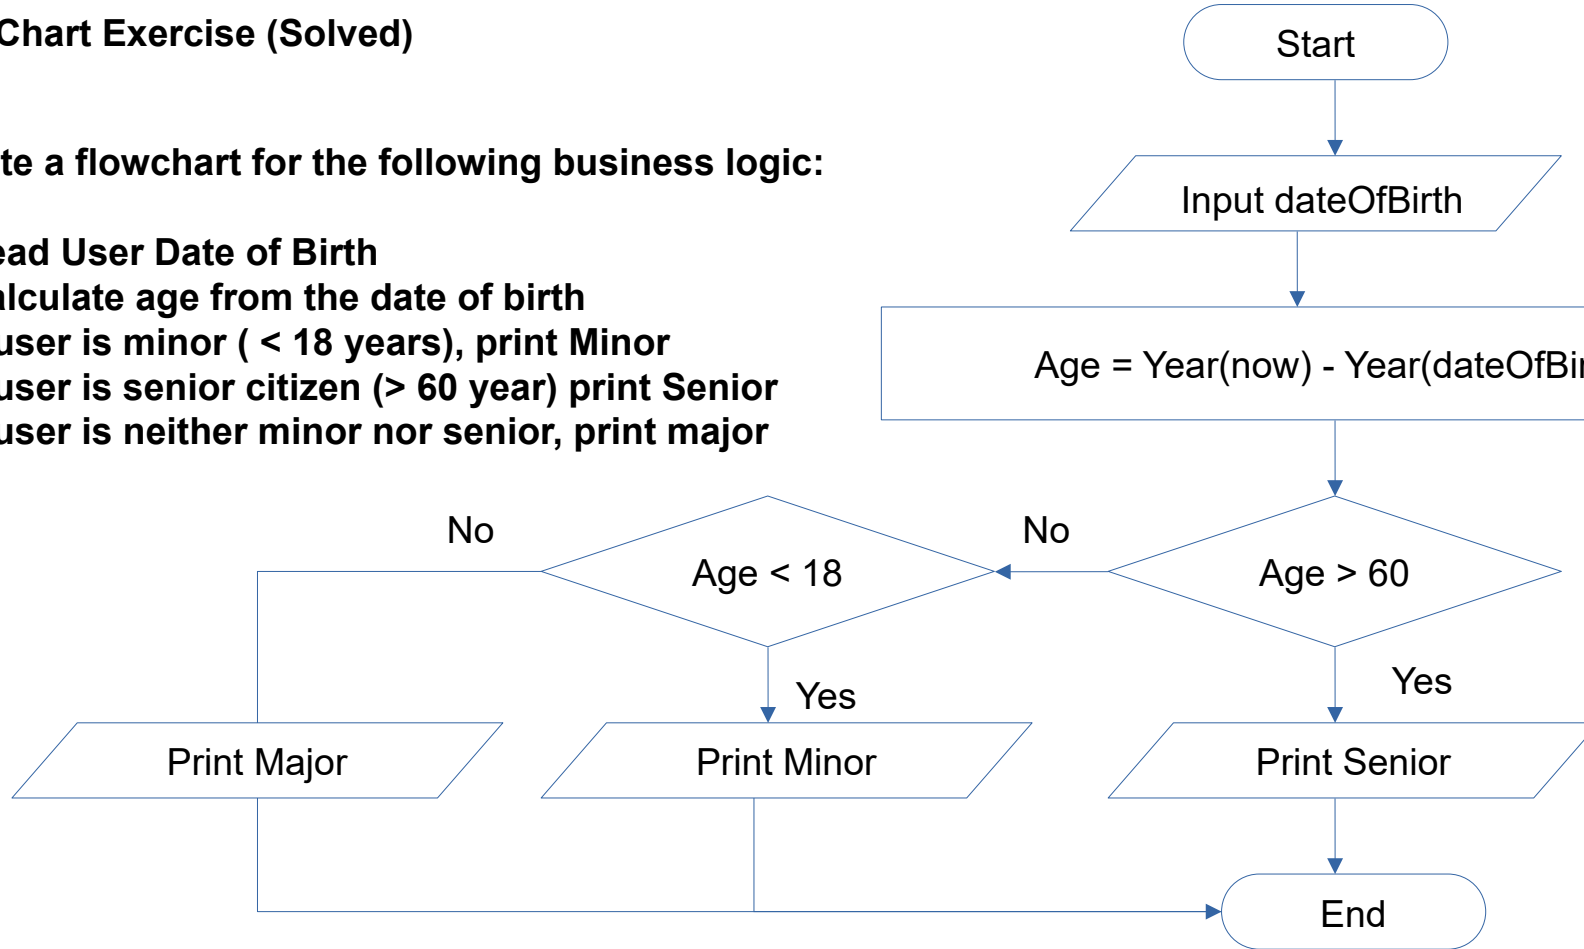

Create a flowchart for the following business logic:

1. Read User Date of Birth
2. Calculate age from the date of birth
3. If user is minor (< 18 years), print Minor
4. If user is senior citizen (> 60 year) print Senior
6. If user is neither minor nor senior, print major

Flow Chart Exercise (Solved)

Create a flowchart for the following business logic:

1. Read User Date of Birth
2. Calculate age from the date of birth
3. If user is minor (< 18 years), print Minor
4. If user is senior citizen (> 60 year) print Senior
6. If user is neither minor nor senior, print major

Flow Chart Exercise (Breakdown into functions)
